DESIGNS FOR BEAUTY™

Calm the Storm™

A CONCENTRATED OMEGA-3 SOFTGEL

Soothe and balance your skin with Calm the Storm™, a powerful, highly-concentrated omega-3 fatty acids formula.* Omega-3s are a type of fat that help keep your skin hydrated, support normal healing processes, and promote healthy inflammatory responses, all of which are important for radiant-looking skin.* Omega-3s may also help protect the skin from external environmental stressors and support normal oil production in the skin, which may support those with occasional blemishes.* Since our bodies can't make omega-3s on their own, Calm the Storm™ is ideal for giving your skin the long-term support it needs with enhanced bioavailability and absorption.*

OP0060-DFB | 60 softgels

GLUTEN FREE FORMULA · DAIRY FREE FORMULA · SOY FREE FORMULA · NON-GMO INGREDIENTS

Recommended Use	Take 2 softgels per day with meals or as directed by your health-care practitioner.

Warning: Consult your health-care practitioner before use if you are taking blood thinner medication or if you are planning to have surgery.

**Daily Value not established.

JUST THE FACTS

- **Omega-3 fatty acids** – Contains two types of omega-3s (EPA and DHA) in a balanced 1-to-1 ratio, similar to how they are naturally found in seafood. This promotes proper absorption of both types.* Each 2-softgel serving provides 1,600 mg of beneficial omega-3s.*
- **Lipase** – A digestive enzyme that makes it easier for your body to digest and absorb the fish oils for skin health.* Plus, it helps avoid the fishy aftertaste.*
- **DeltaGold® tocotrienols** – Features a beneficial form of vitamin E, which promotes stability and helps maintain quality over time.*
- **Contains fish** (anchovy, sardine, mackerel) — Sustainably sourced from wild-caught anchovy, sardine, and mackerel fish from Peru and Chile.
- Uniquely combines three different forms of fish oils for improved bioavailability.*
- Calm the Storm™ undergoes molecular distillation and filtration, ensuring it's pure and free from metals, pesticides, PCBs, and other contaminants.
