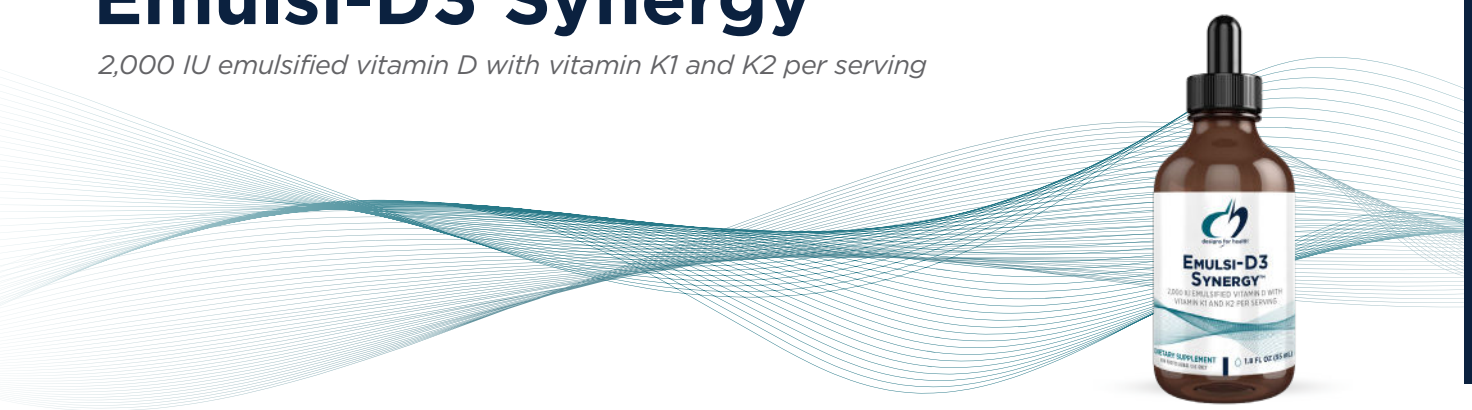
FOUNDATIONAL HEALTH

Emulsi-D3 Synergy™

2,000 IU emulsified vitamin D with vitamin K1 and K2 per serving



Emulsi-D3 Synergy™ is a highly concentrated liquid vitamin D + K formula. It provides targeted amounts of vitamin D3, vitamin K1, and vitamin K2. With its tasty liquid delivery and easy use, it is a convenient choice for both adults and children (> 4 years old).

Both vitamins D and K are essential for bone, heart, and immune system health. This formula may be beneficial for individuals who do not get adequate sunlight exposure and/or dietary sources of these important fat-soluble vitamins.

Why are Vitamins D and K Important?

1. Bone Health: Vitamins D and K work together to keep bones strong and healthy. They help shuttle calcium into bones and teeth and away from arteries.
2. Heart Health: By helping direct calcium away from arteries, vitamin K2 promotes strong and flexible arteries. Healthy arteries are important for blood flow and circulation.
3. Immune System: Vitamin D is required for normal immune system balance and respiratory health, especially during times of immune challenge.* It also helps the body absorb calcium.

Benefits*

- Supports optimal bone health
- Supports cardiovascular health
- Promotes arterial strength and flexibility
- Helps maintain immune system balance
- Helps optimize calcium absorption

Recommended Use

Take 1 mL per day or as directed by your health-care practitioner.

Highlights

- Each dropper provides 50 mcg (2,000 IU) of vitamin D3, 200 mcg of vitamin K1, and 40 mcg of vitamin K2 (as MK-4)
- Pleasant taste and convenient liquid delivery
- Suitable for children, older adults, and individuals who have trouble with pills
- Mixes easily in liquid or can be taken directly under the tongue
