

Curcum-Evail® 200/400

Highly Bioavailable Curcumin

CYTOKINE SUPPORT*

Curcum-Evail® is a highly bioavailable proprietary blend of three bioactive, extensively researched curcuminoid compounds. Curcumin is derived from turmeric (*Curcuma longa*), which is traditionally used both as traditional herbal remedy and a spice. Curcumin supports healthy metabolism, cellular function, and healthy cardiovascular and neurological functions.* It also supports a healthy response to oxidative stress and a healthy inflammatory response within the body.*

Curcum-Evail® softgels are available in two serving sizes depending on the need:

- Curcum-Evail® 200 provides 200 mg of curcuminoids per serving for dosing flexibility
- Curcum-Evail® 400 provides 400 mg of curcuminoids for a higher dosage option

Designs for Health's proprietary Evail™ emulsification technology is designed to enhance the bioavailability and absorption of bioactive ingredients. The Evail™ process uses a quillaja extract, along with delta- and gamma-tocotrienols, and medium-chain triglycerides (MCTs) to support absorption.

Curcum-Evail® helps support a healthy inflammatory response, healthy metabolism, cellular health, cardiovascular health, neurological health, and normal immune function.*

Benefits*

- Supports a healthy inflammatory response
- Promotes a normal response to oxidative stress
- Supports a healthy metabolism
- Helps support cardiovascular and neurological health
- Promotes healthy cell function

Recommended Use

Take 1 softgel per day with a meal or as directed by your health-care practitioner.

DeltaGold® is a registered trademark of American River Nutrition, LLC and protected by US Patent No. 8,586,109.
