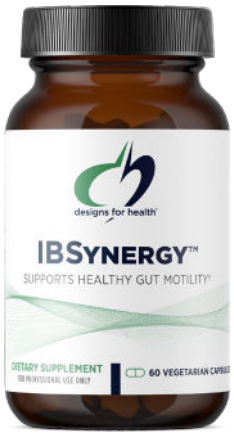
IBSynergy™

*Supports healthy gut motility**

IBS060 | 60 vegetarian capsules

IBSynergy™ is the comprehensive support you need for a healthy gut-brain connection and gastrointestinal (GI) motility.* Designed to target the enteric nervous system (ENS)—your body's "second brain;" the special system made up of nerve cells, neurotransmitters, and proteins that reside along your GI tract and regulate digestive activity (the breakdown of food) from the esophagus and stomach to the small and large intestines. By assisting ENS function within your gut, IBSynergy™ works to maintain regular gut function, motility, and normal bowel movements to promote overall well-being, potentially helping with common GI complaints.*



GLUTEN FREE FORMULA · DAIRY FREE FORMULA · SOY FREE FORMULA · VEGAN FORMULA · NON GMO INGREDIENTS
