

# Liposomal Glutathione

100 mg Glutathione. Superior Delivery and Absorption.\*

 LPOGLT | 1.6 fl oz (50 mL)

Designs for Health's Liposomal Glutathione is an exciting glutathione product formulated with liposomal technology for optimal absorption and utilization.\* Liposomal technology delivers glutathione in extremely tiny particles, which allows for fast absorption, starting in the mouth – this helps offset absorption challenges typically seen in oral glutathione supplements.\* Although the human body can produce glutathione on its own, production can have difficulty keeping up in times of excess stress, immune challenges, unhealthy microbial environments, or during old age – as glutathione status can decline with the natural aging process. Thus, supplementing with Liposomal Glutathione may be beneficial for individuals in time of need.\*

## LIVER/DETOXIFICATION\*

Supports healthy glutathione status\*

Promotes antioxidant status\*

Supports normal liver detoxification pathways, including supporting normal heavy metal clearance\*

Supports immune function\*

## Supplement Facts

Serving Size 1 mL (approx. 2 pumps)  
Servings Per Container 50

Amount Per Serving	% Daily Value

## JUST THE FACTS:

Compare supplement facts to the leading brands

- **Glutathione** — This product provides glutathione in its beneficial reduced form.\* Glutathione is the body's most powerful antioxidant that “wears many hats” – a key factor in supporting healthy liver detoxification function, helping to bind heavy metals and to neutralize toxins\*
- **Phospholipids** — Provide liposomal technology to promote glutathione absorption and bioavailability\*
- **Natural citrus and mint oils** — Pleasant taste with citrus-mint flavor, lightly sweetened with stevia
