

Lipotrienols RYR™

Red Yeast Rice, Delta/Gamma-Tocotrienols, and Lycopene

CARDIOVASCULAR HEALTH†

Lipotrienols RYR™ is formulated to work on complementary pathways to support overall cardiovascular health and to promote healthy fat metabolism, antioxidant activity, inflammatory response, and blood pressure.* Lipotrienols RYR™ features 1.2 g of organic red yeast rice (*Monascus purpureus*), 100 mg of vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols), and 20 mg of lycopene per 2-capsule serving.

Red yeast rice can be derived from fermented rice that contains beneficial compounds that may be positively associated with healthy fat metabolism and blood pressure.* Collectively, these characteristics support healthy blood vessels and cardiovascular health.* Lipotrienols RYR™ is made from certified organic red yeast rice that has been grown in the U.S. and carefully cultivated to ensure adequate levels of health-promoting compounds.*

Tocotrienols are a class of vitamin E fractions that may work synergistically with red yeast rice to support overall cardiovascular health.* Lipotrienols RYR™ contains a unique, purified blend of delta- and gamma-tocotrienols that may act upon enzyme systems in the body to promote a healthy lipid profile and support a healthy inflammatory response.*

Lycopene is a carotenoid, which is a plant compound responsible for the red, yellow, and orange pigments in certain fruits and vegetables, such as tomatoes. Research has shown that lycopene may help protect the body from the effects of free radicals and may support healthy fat metabolism and cardiovascular health, nicely complementing red yeast rice and tocotrienols.*

Benefits*

- Supports cardiovascular health
- Promotes healthy fat metabolism
- Promotes a healthy inflammatory response
- Supports antioxidant activity
- Supports healthy blood pressure

Recommended Use

Take 2 capsules per day in the evening with food or as directed by your health-care practitioner. For best results, do not take within 6 hours of taking a vitamin E supplement containing D-alpha tocopherol.

Highlights

- 1.2 g of organic red yeast rice (*Monascus purpureus*)
- 100 mg of vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols)
- 20 mg of lycopene
- DeltaGold® is tocopherol-free tocotrienol extracted from the annatto plant containing 90% delta-tocotrienol and 10% gamma-tocotrienol
- Gluten-free and dairy-free
- Non-GMO
