

Mood-Stasis™

Healthy Mood and Calming Support*

STRESS/MOOD+

Mood-Stasis™ is a blend of vitamins and herbs that work synergistically to support a calm and positive mental outlook.* It contains saffron and sceltium extracts, which have been shown to support a normal stress response, along with vitamin B12 and folate.*

Saffron, derived from the red stigmas of the *Crocus sativus* flower, has a long history of culinary and medicinal uses. Research shows that it may support a positive mental outlook*, promotes a healthy inflammatory response, and may help support neurotransmitter metabolism.* Sceltium has a long history of medicinal use by indigenous peoples for relaxation and stress reduction.

Modern research supports its potential to enhance positive mood and cognitive function, support a normal response to stress, and help promote calm without sedative effects.* Folate and vitamin B12 play important roles in the synthesis and regulation of serotonin and dopamine.*

Benefits*

- Supports a calm and relaxed mood
- May support a positive mental outlook
- Supports a normal stress response
- Supports neurotransmitter balance

Recommended Use

Take 1 capsule per day or as directed by your health-care practitioner
