

NeuroRenew™

*Supports Healthy Nerve Function**

**NERVOUS SYSTEM
SUPPORT***

NeuroRenew™ is a unique blend of B vitamins, acetyl-L-carnitine, and R-lipoic acid designed to help support the body's normal nerve regeneration, and repair processes, neurotransmitter function, and healthy pain responses.* Nerve damage may result from various factors, like genetics, surgery, certain conditions, excessive alcohol intake, medications, or nutrient gaps. Issues with blood sugar metabolism can also impact nerve function negatively.* NeuroRenew™ may be beneficial for individuals dealing with nerve damage and pain, blood sugar irregularities, neurodegenerative concerns, and aging.*

Vitamin B12 is essential for producing myelin in the body, a protective substance for nerves that supports proper signaling and communication between nerve cells.* Vitamin B12 may also support normal pain responses.* Vitamin B6 is required for the normal release and function of our "feel good" chemical messengers - serotonin, dopamine, and GABA.*

Proper levels of these neurotransmitters may promote normal pain responses.* Folate (vitamin B9) is critical for proper nervous system development and promotes normal nerve structure and function.*

Benfotiamine, a type of vitamin B1, can easily fit into the fatty parts of cells, like those in the nervous system. This makes it helpful for keeping the cell structures, especially the protective coating called myelin, strong and working well, supporting the health and normal repair of nerves.* Benfotiamine also has antioxidant properties that can potentially help with discomfort related to blood sugar imbalances.*

R-lipoic acid and acetyl L-carnitine may help neutralize free radicals in the body, which is implicated in nerve damage.* L-carnitine supports neurotransmitter function and energy production, a requirement for the regeneration and proper function of nerve cells.*

Benefits*

- Supports healthy nerve structure and function
- Promotes normal nerve regeneration
- Supports neurotransmitter function
- Supports normal pain responses

Recommended Use

Take 4 capsules per day, or as directed by your health-care practitioner (divided dosing recommended).

Highlights

- Includes bioavailable and biidentical forms of B vitamins (vitamin B12, vitamin B6, folate, and benfotiamine, a vitamin B1 precursor) to support the nervous system*
- 1 g of acetyl L-carnitine per serving
- 200 mg of R-lipoic acid per serving
- Gluten-free, dairy-free, soy-free
- Non-GMO
