

Olive Leaf Extract

Supports Microbial Balance And Immune Health*

The leaf of the olive plant (*Olea europaea*) has long been used in traditional medicine for a variety of health complaints. Evidence suggests that supplementation with olive leaf extracts may help promote certain aspects of health.* Olive leaf extract has demonstrated support for healthy antioxidative status, normal blood sugar metabolism, healthy cholesterol metabolism, a healthy immune response, and gut microbial balance.*

Designs for Health's Olive Leaf Extract formulation provides a clinically relevant amount of olive leaf extract

IMMUNE HEALTH*

to help support cellular and immune health.* It is standardized to contain 20% oleuropein, the active molecule that research has shown to support a healthy inflammatory response, cardiovascular health, and metabolic function.*
