

OmegAvail™ TG1000

1,000 mg of Omega-3 per Softgel

FOUNDATIONAL HEALTH

OmegAvail™ TG1000 is a highly concentrated, non-GMO fish oil that contains an impressive 1,000 mg of omega-3 fats per softgel. Unlike many other fish oil supplements, the omega-3s in this formula are provided in the triglyceride (TG) form, which is the same way they occur naturally in fish and other seafood. This form of triglyceride is most easily recognized and absorbed by the body.

Our bodies require a variety of different fats to maintain optimum health. Two of these are omega-6 and omega-3 fatty acids, which must be supplied through the diet because the body cannot produce them on its own. As a result of modern food processing and farming practices, the American diet is much higher in omega-6s in relation to omega-3s. Most people do not consume cold water fish regularly, although they are the best food source of omega-3s. Therefore, supplementation may be beneficial to help maintain a healthy balance of fatty acids.*

Benefits*

- Supports healthy triglyceride and cholesterol metabolism
- Supports normal immune and normal inflammatory responses
- Promotes healthy cardiovascular and metabolic function
- Supports cell membrane health and joint health
- Promotes brain health
- May help support positive mental outlook
- Supports skin, hair, and eye health

Recommended Use

Take 1 softgel per day or as directed by your health-care practitioner.

Highlights

- Features 1,000 mg of omega-3 fats, including 662 mg of EPA and 250 mg of DHA per softgel
- Friend of the Sea-certified, sustainable wild-caught anchovy, sardine, and mackerel fish from the waters of Peru and Chile.
- Vitamin E isomers (as DeltaGold® delta- and gamma-tocotrienols) for enhanced stability and protection from rancidity
- Lipase enzyme added to support digestion and absorption of the fish oil*
- Features fish oil as Bioglycerides™, a superior form of omega-3s that are bioavailable and bioidentical to what is found naturally in fish
- Ultra-distilled and filtered to ensure purity and the removal of heavy metals and other contaminants; does not have a fishy odor or taste
