

# OsteoForce™ Supreme

2,000 IU of Vitamins D3, K1, K2, and MBP®

**MUSCULOSKELETAL\***

OsteoForce™ Supreme is a unique blend of highly absorbable vitamins and minerals formulated to support bone health, bone strength, and bone integrity.\* OsteoForce™ Supreme features calcium and magnesium that are bound to malic acid for enhanced absorption, along with chelated forms of zinc, copper, and manganese for superior bioavailability.\* Milk Protein (as MBP®) is included to promote bone formation and healthy bone density.\*

Optimal bone health can be difficult to maintain because the skeleton requires adequate amounts of bone-supportive nutrients, but it must also serve as a mineral reservoir for the rest of the body. The bones may weaken if the body extracts too many nutrients from the skeletal system. Therefore, the key to supporting bone health is maintaining homeostasis, which involves sustaining the nutrient balance between bones and the body.\*

The nutrients in OsteoForce™ Supreme work synergistically to support bone health and integrity.\* Milk protein promotes bone formation and attenuates bone breakdown.\* Calcium is the primary mineral in the hard tissues that provide strength and support.\* Vitamin D regulates calcium homeostasis, bone mineralization, and bone formation.\* Vitamin K, supported by geranylgeraniol (GG), plays an important role in supporting the proper trafficking of calcium into the bone.\* Magnesium also influences proper bone mineralization.\* Vitamin C supports the synthesis of collagen, which is a critical component of bones and connective tissues.\* Zinc, copper, manganese, and boron support different aspects of collagen and bone production.\* Vitamin E tocotrienols help promote a healthy inflammatory response to support bone health.\*

## Benefits\*

- Promotes bone health
- Supports healthy bone strength and integrity

## Recommended Use

Take 6 capsules per day with meals or as directed by your health-care practitioner.

## Highlights

- Delivers targeted amounts of calcium, magnesium, and boron per serving
- Delivers targeted amounts of vitamins D, K, C, and E per serving
- Chelated minerals (zinc, copper, and manganese) for enhanced absorption and bioavailability
- Contains 5 mg of trans-geranylgeraniol (as GG-Gold®) per serving
- Includes 40 mg of Milk Protein (as MBP®) per serving
- Gluten-free and soy-free
- Non-GMO
