

ProbioMed™ Women

25B CFU Probiotic for Vaginal Health and GI Support*

The vaginal microbiome is important for supporting the body's normal tissue repair, a healthy pH, and the proper balance of microbial species.* A balanced vaginal microenvironment may help promote a normal inflammatory response and help support overall gynecological health.* Certain probiotic species in the *Lactobacillus* and *Bifidobacterium* genera have been shown to help maintain microbial homeostasis in the vagina.*

ProbioMed™ Women is a targeted formula designed to help support vaginal and gastrointestinal (GI) microbial balance.* It provides a dairy-free, clinically relevant serving of 25 billion colony-forming units (CFUs) per capsule. It is formulated with 10 highly researched probiotic strains shown to help promote optimal vaginal comfort and GI health, a healthy mood, a normal immune response, and microbial balance.*

This unique formula features 5 billion CFUs of ASTARTE™, a proprietary blend of four bacterial strains typically found in a healthy vaginal microbiome to help support a balanced vaginal microbial population.* ProbioMed™ Women provides *Bifidobacterium* and *Lactobacillus* strains to promote healthy gut motility and vaginal microbial balance.* It also delivers a clinically relevant 10 billion CFUs of *L. acidophilus* DDS®-1, a patented probiotic strain to help promote GI function and motility.*

ProbioMed™ Women may be optimal for those requiring higher amounts of dairy-free probiotic species to support vaginal and GI microbial balance, gut motility and function, and immune health.*

Benefits*

- Promotes healthy vaginal microbial balance
- Supports healthy gut motility and function
- Supports a normal immune response
- Promotes optimal GI and vaginal comfort, including in pregnant women
- May help support a healthy mood

Recommended Use

Take 1 capsule per day with a meal or as directed by your health-care practitioner.
