

Prostate Supreme™

Supports Male Sexual Health*

MEN'S HEALTH

Prostate Supreme™ provides comprehensive support for optimal prostate function.* This unique formulation supports healthy hormone balance and provides vitamins, minerals, and botanicals for antioxidant and nutrient support specific to prostate health.* Prostate Supreme™ is appropriate for men 45 years of age and older to help maintain healthy prostate function.*

Prostate Supreme™ contains saw palmetto, a botanical that supports a healthy hormonal balance through potential ability to help inhibit 5-alpha reductase, which is an important enzyme in testosterone metabolism.*

Saw palmetto may also support prostate cellular health and healthy urinary function.* Studies also suggest that saw palmetto may have synergistic qualities in the presence of lycopene and nettle, two of the main ingredients in Prostate Supreme™.

Lycopene is a powerful phytonutrient that may help support a healthy response to inflammation.* Nettle is a botanical that may help downregulate certain pro-inflammatory genes. Diindolylmethane (DIM), a compound commonly found in cruciferous vegetables, supports hormone metabolism.* Chrysin is a flavone found in propolis, honey, and some plants that acts as an aromatase inhibitor, which helps support normal estrogen metabolism*. Vitamin D is included, as it is associated with a decrease in the prevalence of BPH.*

Benefits*

- Supports prostate health
- Promotes healthy hormonal balance
- Supports healthy urinary function

Recommended Use

Take 2 capsules per day with a meal or as directed by your health-care practitioner.

Highlights

- Synergistic combination of a wide array of prostate-supportive vitamins, nutrients, and botanicals
