

TriMag Complex™

MITOCHONDRIAL EFFICIENCY SUPPORT*

KEY BENEFITS

- Supports ATP synthesis and optimal cellular respiration, leading to fatigue reduction and sustained energy.*
- Aids neurotransmitter production, sleep optimization, calming the nervous system for better stress management.*
- Protects against oxidative stress, supports heart health, and facilitates effective detoxification for overall wellness.*

PRODUCT DESCRIPTION

TriMag Complex™ is an advanced magnesium supplement designed to restore energy, enhance resilience, and support cellular health.* Its unique formulation combines three bioavailable forms of magnesium—Magnesium Malate, Magnesium Bisglycinate Chelate, and Magnesium Taurate—each targeting distinct systems for optimal benefits.

These forms work synergistically with Pyridoxal-5-Phosphate (Vitamin B6) and Boron, essential cofactors

that amplify magnesium's impact on energy production, neurotransmitter synthesis, and hormonal balance.*

TriMag Complex also features BioActive Carbon® Technology, which enhances nutrient absorption and binds toxins for cellular detoxification. This integrative approach makes it a powerful tool for combating magnesium depletion, reducing oxidative stress, and promoting cardiovascular, nervous system, and overall wellness.*

LABEL INFORMATION

Directions: Take 2 capsules daily, or as otherwise directed by a healthcare practitioner. Can be taken with or without food.

CAUTION: Please consult your healthcare practitioner before use if you are pregnant, breastfeeding, or considering use for a child. Store in a cool, dry place.

KEEP OUT OF REACH OF CHILDREN.
